# 1 Introduction

This document will provide some information about our project (‘Turing Award Recipients’). It also contains our CSS template and the website main features. The address of the GIT repository is: `@atelier.inf.usi.ch:/home/lambrrr/project_sa1.git`

## 2 Roles

<b>Team leaders:</b>	Michele Dalle Rive, Sofia d’Atri <b>Duties:</b> Coordinate the team and check for the quality of everyone’s work.
<b>CSS leaders:</b>	Alessandro Zanzi, George Batyrev <b>Duties:</b> Choose the color palette and create consistent, organized and commented CSS code.
<b>Topic leaders:</b>	Michele Smaldone, Filippo Piloni, Giorgio Bonetto, Federico Bonezzi <b>Duties:</b> Choose relevant content for the website and assign a subtopic to each team member.
<b>Git leader:</b>	Riccardo Lambrugo <b>Duties:</b> Organize correctly the GIT remote repository, keeping track of the commits and handling any problems.
<b>Bonus teams:</b>	To be defined
<b>Inactive members:</b>	Buonaventura, Gur, Liang, Liu, Singh

## 3 Communication channels

WhatsApp groups:

- **Group 2 SA:** Chat group with all team members
- **Group 2 Leaders:** Chat group with Team, CSS, Topic and GIT Leaders
- **Topic Leaders:** Chat group for the Topic Leaders

Discord server with different text and voice channel for CSS discussion, GIT discussion, Topic discussion, HTML discussion and general discussion.

## 4 Website organization

The 55 years of Turing Award are divided among the topic leaders:

- **Topic leader 1:** 1966 - 1979
- **Topic leader 2:** 1980 - 1992
- **Topic leader 3:** 1993 - 2006
- **Topic leader 4:** 2007 - 2020

Each topic leader will assign one or many years to each team member.

The website will contain the following pages:

- `/index.html`: Homepage of the website containing a timeline.
- `/html/about.html`: Page containing general information about the Award.
- Decade pages: 7 pages containing the winners for each decade (1960s - 2020s).
- Winner pages: 55 pages (1 per year) containing the reason for that year award.
- Biography pages: 27-55 pages (1 per year) containing a concise biography about that year's winners

Each Turing Award year has 2 HTML pages (Reason for the win and biography of the winners), so each team member will be assigned roughly to 2 Turing Award years.

The total amount of pages will be ~93-120 pages.

## 5 Repository organization

## 6 CSS Layout

The files contained in the `/src/css/` folder are the stylesheets for the different pages:

- `core.css`: Contains shared styles in the whole website
- `colors.css`: Contains the color palette definition in order to be changed easily
- `index.css`: Contains the style for the homepage.
- `biography.css`: Contains the style for the biography of the winners
- `decade.css`: Contains the style for the pages about each decade.

The current color palette is:

Primary & Background color.

Secondary color.

Text color.

Accent color.
