

Deadlines

Hello everyone, here's an important announcement. Before I go on, I'd like to remind everyone who hasn't yet to join the Discord server, because it can be a powerful medium especially for group work. Here's the link: <https://discord.gg/mj5NDDUQf3>

I will assign each of you to a specific topic leader and reveal the pages you'll be working on. If you have any questions concerning the topic, please don't hesitate to contact your assigned topic leader or one of the team leaders, we'll be ready to help in any way we can.

But first, here are the deadlines for the web pages submission. Please follow them because us team leaders need time to check each one of them carefully. You're free to submit them well before the deadline if you can, it will be greatly appreciated! We'd like to have everything ready by Thursday 18th, to have the time to check everything. If for any reason you need more time, please contact us and we'll work something out together.

1. Wednesday 10th: submit the first HTML page
2. Friday 12nd: submit the second HTML page
3. Sunday 14th: submit the third HTML page
4. Tuesday 16th: submit the fourth HTML page

The bonus exercises must be submitted by Wednesday 17th.

We encourage you to start doing the research on the topics as soon as possible, in order to have the contents ready. Little reminder that, although you're free to use any source of information to gather your content, you have to use your own words because the webpages will be passed through **anti-plagiarism software** by the teacher. The topic and team leaders will also check for plagiarism before submitting the final website, but please be careful and don't copy-paste everything!
